DIRECTOR OF GENERAL CHEMISTRY INSTRUCTION

The University of Georgia Department of Chemistry (chem.uga.edu) invites applications for a **Director of General Chemistry Instruction**. The appointment will be at the rank of Academic Professional, which is a full-time (12-month) non-tenure track faculty position. Applicants are sought who can demonstrate a commitment to excellence in instruction as well as a clear and creative vision for the management of a large first-year chemistry instructional program. A Ph.D. in chemistry or related field is required; 5 years previous experience in chemistry education, especially administrative experience, is highly desirable. Candidates should submit a cover letter of interest, curriculum vitae, and concise statements of accomplishments in teaching and administration and their relevance to this position included with the teaching portfolio. They should also arrange for at least three letters of recommendation to be submitted. The application materials must be submitted electronically (http://www.ugajobsearch.com/postings/119179). Correspondence may be addressed to the search committee chair, Prof. Robert Scott (rscott@uga.edu). Review of applications will begin October 15, 2019, but applications will be accepted until the position is filled. The Franklin College of Arts and Sciences, its many units, and the University of Georgia are committed to increasing the diversity of its faculty and students and sustaining a work and learning environment that is inclusive. The University is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, ethnicity, age, genetic information, disability, gender identity, sexual orientation, or protected veteran status. Persons needing accommodations or assistance with the accessibility of materials related to this search should contact Central HR (hrweb@uga.edu). Please do not contact the department or search committee with such requests.
