NUCLEAR MAGNETIC RESONANCE (NMR) MANAGER POSITION

The Department of Chemistry at the University of Georgia seeks a manager for their nuclear magnetic resonance (NMR) facility. This is a full-time (12-month) non-tenure track faculty position. The NMR Manager will be fully responsible for supervision and maintenance of Bruker, Varian/Agilent, and potentially JEOL 400, 500, and 600 MHz NMR instruments, and will share responsibilities for a Bruker EPR system. The manager will also be responsible for training and assisting users, scheduling instrument use, assisting faculty in teaching NMR courses, and other facility management related duties. Additional expectations include participating in collaborative research efforts with faculty, pursuing independent research efforts, and assisting in grant proposal and manuscript preparation. In the summer of 2021, the facility will relocate to a new, state-of-the-art building currently under construction. A Ph.D. in Chemistry, Biochemistry, Physics, or a related field is required at time of appointment. One year of postdoctoral experience in NMR spectroscopy is highly desirable, as is at least one year of experience with troubleshooting hardware, routine maintenance of NMR instruments, and computer administration and networking. A curriculum vitae and a cover letter should be submitted electronically (http://www.ugajobsearch.com/postings/119194). The names and contact information for three individuals who will serve as references are also required. Consideration of applications will begin on October 15, 2019, and continue until the position is filled. The successful applicant will find excellent opportunities for interactions and collaborations with other spectroscopists, scientists and professionals that utilize the exceptional NMR facilities, including very high field instruments, across the University of Georgia campus. Correspondence can be directed to the search committee chair, Prof. Jeffrey Urbauer (urbauer@uga.edu). The University of Georgia (www.uga.edu) is a land-grant institution located in the city of Athens (www.visitathensga.com) 60 miles east of Atlanta. The Franklin College of Arts and Sciences, its many units, and the University of Georgia are committed to increasing the diversity of its faculty and students, and sustaining a work and learning environment that is inclusive. The University is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, ethnicity, age, genetic information, disability, gender identity, sexual orientation, or protected veteran status. Persons needing accommodations or assistance with the accessibility of materials related to this search are encouraged to contact Central HR (hrweb@uga.edu). Please do not contact the department or search committee with such requests.
