# About NOBCChE

The primary purpose of the National Organization for the Professional Advancement of Black Chemists and Chemical Engineers (NOBCChE) is to initiate and support local, regional, national, and global programs that assist people of color in fully realizing their potential in academic, professional, and entrepreneurial pursuits in chemistry, chemical engineering, and related fields

The Organization promotes careers in science and technology as an achievable goal for elementary, middle, and high school students. In addition, NOBCChE encourages college students to pursue graduate degrees in the science, technology, engineering, and mathematics (STEM) disciplines.

The 2019 Conference will be held November 18-21 at the historic Union Station Hotel in St. Louis, Missouri.
