

Classification Title:

Assistant Professor of Chemistry

Minimum Requirements:

Candidates must have earned a PhD in computational or theoretical chemistry, or a related discipline, and subsequent postdoctoral training is encouraged, but not required.

Job Description:

The Department of Chemistry at the University of Florida (www.chem.ufl.edu) has an opening for a nine-month, tenure-track appointment at the level of ASSISTANT PROFESSOR, in the general area of Computational or Theoretical Chemistry, to begin August 16, 2019. The position includes start-up and lab space for the successful candidate to advance their research program. The candidate is expected to have demonstrated potential for excellence in teaching and mentoring a diverse undergraduate and graduate student body.

UF and the Department of Chemistry are committed to increasing faculty diversity and candidates from under-represented groups are particularly encouraged to apply. We strongly encourage applications from women, members of groups that are underrepresented in the profession, individuals with disabilities, and veterans. There are currently over forty-five faculty in the Department with internationally recognized expertise in computational and theoretical chemistry, biochemistry, biophysical chemistry, synthetic organic chemistry, inorganic chemistry, physical chemistry and analytical chemistry. The department is also affiliated with the Quantum Theory Project, an internationally-recognized center for the development and use of quantum-mechanical methods to understand the properties of atoms, molecules, and materials.

Special Instructions to Applicants:

The review of the applications will start on NOVEMBER 1, 2018 and continue until the position is filled. Applications must be submitted at <https://apply.interfolio.com/55888>, and must include: 1) a cover letter, 2) curriculum vitae, 3) description of future research plans (no more than five pages) and teaching philosophy (two pages, maximum), and 4) three confidential letters of recommendation. Inquiries can be addressed to Computational Chemistry Search Chair (compchem_search@chem.ufl.edu), Department of Chemistry, University of Florida, P.O. Box 117200, Gainesville, FL 32611-7200.

All candidates for employment are subject to a pre-employment screening which includes a review of criminal records, reference checks, and verification of education.

The selected candidate will be required to provide an official transcript to the hiring department upon hire. A transcript will not be considered "official" if a designation of "Issued to Student" is visible. Degrees earned from an educational institution outside of the United States require

evaluation by a professional credentialing service provider approved by the National Association of Credential Evaluation Services (NACES), which can be found at <http://www.naces.org/>.

The University of Florida is an equal opportunity institution dedicated to building a broadly diverse and inclusive faculty and staff. Searches are conducted in accordance with Florida's Sunshine Law. If an accommodation due to disability is needed in order to apply for this position, please call (352) 392-2477 or the Florida Relay System at (800) 955-8771 (TDD).
